Re: **Billing Recommendation: Rendering Provider and Supervising Physician Instructions**

In order to provide a greater level of detail regarding the actual rendering provider in Managed Care reports, it is vital that the appropriate NP/PA/CNM and Supervising Physician identifying information is provided on all applicable claim submissions. Please be advised that the MPM claims database is configured to identify the rendering provider information in box 24J, including but not limited to MDs, DOs, and physician extenders i.e. Nurse Practitioner and Physician Assistants. For services rendered by a physician extender, the Supervising Physician information along with the attached modifier should be billed as follows:

**CMS 1500**
