

## Well Child Visits in First 30 Months (W30)

### Child and Adolescent Well-Care Visits (WCV)

**Eligible:**

- Commercial and Medi-Cal members.
- The W30 and WCV measures are based on the American Academy of Pediatrics “Bright Futures: Guidelines for Health Supervision of Infants, Children and Adolescents” (published by the National Center for Education in Maternal and Child Health).
- Visit the Bright Futures website for more information about well-child visits at <https://brightfutures.aap.org/materials-and-tools/guidelines-and-pocket-guide/>.
- The well-care visit must occur with a PCP or an OB/GYN practitioner, but the rendering service practitioner does not have to be the practitioner assigned to the member.

**Coding is Critical:**

- Proper and timely coding W30 and WCV encounters is essential since NCQA has designated these measures as administrative rather than hybrid, meaning a chart sample will not be obtained to improve rates and use of supplemental data (EHR extracts or medical records) may be limited at health plan discretion.
- Keep this coding tip sheet handy and revisit your coding workflows for these measures to make sure they are coded properly.
- Make sure to use the age specific CPT codes below when billing for well child visits, in addition to the routine health exam ICD-10 code.
- Get started now by properly documenting and coding well child visits for 7-11 year olds.

Measure	Requirements	Coding
<b>W30</b> Well Child Visits in the First 30 Months  <i>Age 0-30 months (2.5 years)</i>	The percentage of members who had the following number of well-child visits with a PCP during the last 15 months. The following rates are reported: <ol style="list-style-type: none"> <li><i>Well-Child Visits in the First 15 Months.</i> <b>Six or more well-child visits</b> before the child turns 15 months old during the measurement year.</li> <li><i>Well-Child Visits for Age 15 Months–30 Months.</i> <b>Two or more well-child visits</b> between 15 months and before the child turns 30 months old during the measurement year.</li> </ol>	<b>ICD-10</b> <b>Z00.121 / Z00.129</b> - Encounter for routine child health examination <b>with / without</b> abnormal findings (age 0-17).  <b>CPT Preventive codes:</b> <b>99381</b> - age <1 year new patient <b>99391</b> - age <1 year established patient <b>99382</b> - age 1-4, new patient <b>99392</b> - age 1-4, established patient  <b>NOTE:</b> Visits must be at least 14 days apart.
<b>WCV</b> Child and Adolescent Well-Care Visits  <i>Age 3-21 years</i>	The percentage of members <b>3–21 years</b> of age who had at least one comprehensive well-care visit with a PCP or an OB/GYN practitioner during the measurement year. <ul style="list-style-type: none"> <li>Ages 7-11 years have been added.</li> <li>Measure is reported in three age stratifications: 3-11 years, 12-17 years, 18-21 years.</li> </ul> <p><i>NOTES: Be sure to also code for the Weight Assessment and Counseling for Nutrition and Physical Activity (WCC) measure during this visit for ages 3-17.</i></p> <p><i>Well care can be done at sick visits by adding the age CPT code and the ICD-10 routine code to the list of diagnosis.</i></p>	<b>ICD-10 –</b> <b>Z00.121 / Z00.129</b> - Encounter for routine child health examination <b>with / without</b> abnormal findings (age 0-17). <b>Z00.00 or Z00.01</b> (age 18+). <b>Z02.5</b> - Sports Physical  <b>CPT Preventive codes:</b> <b>99382</b> - age 1-4, new patient <b>99392</b> - age 1-4, established patient <b>99383</b> - age 5-11, new patient <b>99393</b> - age 5-11, established patient <b>99384</b> - age 12-17, new patient <b>99394</b> - age 12-17, established patient <b>99385</b> - age 18+, new patient <b>99395</b> - age 18+, established patient
